Relations With Russia

(By U. S. Press)
 Washington, Dec. 23.—The President of the United States would be authorized to send a commission to Russia and to invite a Russian commission to the United States, to hold informal conversations with the de facto government of Russia for the purpose of arriving at a basis of understanding between the two countries to discuss and to negotiate all problems and differences which must be adjusted looking to the formal recognition and to the restoration of friendly international and commercial relationships between the United States and Russia, under a resolution introduced by Senator France of Maryland.

The NEW EDISON was BEST by a full 100 %

Dr. W. V. Bingham wanted to know which was the best phonograph. On October 24, 1921, he made a scientific comparison between the New Edison and three other phonographs. He put these instruments through nine different tests,—comparing them for realism in reproducing male and female voices, piano, violin, banjo, and cornet. The New Edison was victorious in all nine tests.

This result means that the New Edison brings beauties in music impossible to other phonographs.

If you find it hard to believe this, compare on your own account. Some artists, such as Rachmaninoff, have made both RE-CREATIONS for Edison, and talking-machine records. Compare the two.

A Phonograph Comparison Card will help you. FREE. Come in and ask for one. If you can't come, use the coupon. Don't delay—Christmas is near.
